WORK EXPERIENCES

Sharelook PTE LTD, Singapore (Fully Remote)

August 09, 2020 - Present

Front End Developer

- Led development of several Sharelook products (App, Marketplace, Voices) using React.js and JavaScript, implementing responsive designs and ensuring compatibility across major browsers.
- Engineered interactive data visualizations and dashboards with D3.js and WebGL integrations, improving user engagement while optimizing performance for large datasets.
- Collaborated with UI/UX designers to implement design systems and user-friendly interfaces, working within an agile team structure to prioritize and deliver key features.
- Utilized Git and AWS services through Bitbucket for version control and CI/CD workflows, managing code reviews and deployment processes while mentoring junior developers.
